Type 2 IMTs committed: 2

*Nationally, there are 42 large fires being managed under a strategy other than full suppression

Northwest Current Incident Details

Incidents listed below meet large fire criteria and/or incidents with a Type 1 or 2 IMT assigned. Large incidents are defined as fires which are 100+ acres in timber or 300+ acres in grass/brush. For additional information on incidents no longer listed below please refer to the [NW Large Incident Summary](#) or [Northwest Fires Utilizing Monitor, Confine, Point Zone Protection Suppression Strategies \(YTD\)](#)

Incidents not Previously Reported: 0

Incidents Previously Reported: 1

Klondike. OR-RSF-000354. IMT2, NW Team 12 (Harrod). 9 mi NW of Selma, OR. Start 7/15. **Full Suppression.** Cause: Lightning. 167,033 acres (+0). 72% containment. Minimal fire behavior. Timber. Evacuation notices. Road, trail and area closures.

Northwest Fire Weather Summary

Rain will move across much of the region on Friday diminishing over the weekend. Temperatures will remain below average. Winds will vary across the region as weather systems arrive and depart.

Northwest Fire Potential Summary

The potential for large fire initiation over the region is minimal due to the wet and cool weather on Friday and lingering through the weekend.

More info, see [NW 7-Day Significant Fire Potential Forecast](#), and [National 7-Day Significant Fire Potential Forecast](#)
